## Chongchuan district and Haimen district unveiled nameplates

By Tang Xiaofeng and Zhu Wenjun

On 28 July, Chongchuan district and Haimen district’s nameplates were unveiled officially, which was a sign that they have entered a new developing stage. Director of Jiangsu

civil affairs department Lv Deming read announcement about adjustments to some administrative areas of Nantong.

Approved by the State Council, administrative areas of Nantong were adjusted. The previous Chongch-

uan district and Gangzha district were cancelled and new Chongchuan district was established, which includes the previous Chongchuan and Gangzha administrative areas. Chongchuan district government will be at No.44 Taowu road, Hon-

gqiao streets. County level Haimen city was cancelled. Nantong Haimen district was established whose administrative area is the one of previous Haimen. Haimen government will be in No. 600 Beijing middle road, Haimen streets.

### News Brlef

On 29 July, at Rugao floating green integrated service area at Changjiang town, Rugao, ships treated sanitary waste for free by ‘Beidou shipping sanitary waste receiving equipment’ with the help of workers, to avoid leakage and illegal release of sanitary waste from ships in the harbour.

### ‘Zhang Jian Cup’ excellent entrepreneurs’ talks about experiences

2017 ‘Zhang Jian cup’ outstanding entrepreneur, board chairman of Tongfu Microelectronics Co., Ltd. Shi Mingda:

## Cleave to original idea, endeavor in new times

By Zhu Beining and Liu Lu

‘General Secretary Xi’s talk on entrepreneurs’ forum was encouraging. The words about promoting entrepreneurs’ spirit was inspiring. We will cleave to the original idea, endeavour in the new times.’ board chairman of Tongfu Microelectronics Co., Ltd. said that entrepreneurs are

industrialists, shall focus on the industry, make it more powerful and advanced.

As a representative of Nantong electronic information industry, Tongfu microelectronics focuses on building high land of integrated circuit package test in China.

In Shi Mingda’s opinion, making the state

powerful with industry is the patriotic idea of entrepreneurs. Tongfu microelectronics has entered integrated circuit package test field for more than 20 years. In these years, Tongfu microelectronics has been increasing independent innovation ability and applying ‘using industry to support the state’ corporate culture with activities.

Shi Mingda said that he will use the talk as guidance, improve the company’s level in fields like patriotism, innovation, honesty, social responsibility and international vision, try to become a major force in promoting high quality development of Nantong, make progress with the staff and lead the company in greater development.

Scan a QR code to enter and exit the station

### Three railways in the Yangtze River delta experimented ‘railway e pass’

By Peng Junjun

Since 28 July, Yangtze River delta Shanghai– Nanjing Intercity High– speed Railway, Nanjing – Anqing Intercity Railway and Nanjing–Qidong Railway experimented ‘railway e pass’, passengers do not need to buy tickets when taking trains start from the departure stations and end at arrival stations, they can use ‘railway e pass’ app to scan QR codes to get on the train right away. It is more convenient and faster.

Within 31 days after they take the train, passengers can print reimbursement receipts themselves at ticket machines in stations. Beware, ‘railway e pass’ QR code is for the owner’s use. From entering the station (enter the gate), to taking the train, leaving the station (exit the gate) is recognized as a trip.

The updated product of China Railway & Banking Expresspay ‘railway e pass’ launched this time will be applied in Shanghai– Nanjing Intercity High– speed Railway (Shanghai – Shanghai Hongqiao – Nanjing), Nanjing – Anqing Intercity Railway(Nanjing south – Anqing) and Nanjing– Qidong Railway (Nanjing – Qidong) high speed railway (bullet train) lines, and the same train on Shanghai– Nanjing Intercity High–speed Railway and Nanjing – Anqing Intercity Railway.

## Yangkou harbor increased promoting of energy island building

By Yang Xinming

On 23 July, at Yangkou harbour Sunshine Island LNG port, natural gas from Papua New Guinea was transported from ‘Hela spirit’ LNG ship to China National Petroleum Corporation Jiangsu LNG receiving pipe by unload-

ing arm, and then entered storage tank. (refer to the above picture) From beginning of the year to that day, in total 32 ships of 2680 thousand tons natural gas was unloaded in Yangkou harbour, and 3.65 billion cubic meters natural gas was transport-

ed out.

According to state plan, in the future, the natural gas receiving and unloading capacity of Yangkou harbour will reach 20 million tons, and the taxable sales will exceed 100 billion Yuan. In the present on Sunshine Island, two 200 thou-

sand cubic meters storage tanks of China National Petroleum Corporation Jiangsu Rudong LNG project phase 3 addition project have completed dome casting, will be in operation in next June. The turnover capacity of the receiving station will reach 10 million tons.
