

Nantong report

The first batch of ‘remove the posted list to bid’ projects of Nantong were published 57.2 million Yuan reward for 11 crucial core technologies

By Wang Weili

On 28 July, the first batch of ‘remove the posted list to bid’ projects of Nantong were published officially. There were in total 11 projects on the list. The reward reached 57.2 million Yuan. Among them, 10 projects were posted by municipal science and technology bureau and enterprises together, to target ‘strangling’ difficult problems; 1 project was posted by municipal science and technology bureau, which was about common technical demand.

This year technological system reform was boosted in Nantong. ‘Remove the posted list to bid’ was implemented first in Jiangsu in 16 superior industrial

chains. ‘Strangling’ technologies which need to be tackled and crucial core technologies projects were open for bidding to the society in the form of posted list. There was no restrictions on applicants, no matter they are in scientific research institutes, universities or enterprises, outstanding applicants can ‘tear off the posted list’.

Applicants shall be universities, research institutes, technological enterprises with research and development abilities, or complex of them. The joint bidding post is open to the state, and individual post is open to Jiangsu province. Organizations which are interested are welcome to apply before 31 August. The details are in the announcement on the website of Nantong science and technology bureau.

Nantong foreign trade ‘semi-annual report’ gratifying

By Zhu Beining

In the first half of the year, the foreign trade import and export amount is 150.36 billion Yuan in Nantong, there is a 27% increase compared with the data of the same period of last year. The acceleration in the rate is 7.1 per cent higher than the average rate of Jiangsu province. There has been a continuous positive increase for 11 months.

In the first half of the year, import and export values to European union, ASEAN, America and Japan are 22.42 billion Yuan,

19.88 billion Yuan, 18.33 billion Yuan and 15.19 billion Yuan respectively, the increase rates are 30.6%, 20.1%, 29.6%, and 1.3%. The sum accounts for 50.4% of total import and export of Nantong.

The reporter learnt from municipal bureau of commerce that this year there are still quite a few uncertain and unsteady elements in foreign trade development of Nantong, however, in the general environment of recovering overseas demand, high business cycle of major industries, and increasing prices of bulk commodity, foreign trade of Nantong is likely to have a positive trend.

‘Chi Sha’ launched

At 3 pm 31 July, the first building component assembling robot in China ‘Chi Sha’ was presented at Jiangsu Geleite heavy industries in Tongzhou district. ‘Chi Sha’ was researched and developed by China Railway Science and Industry Group Co., Ltd., and built by Jiangsu Geleite heavy industries. Its birth filled the gap in precast construction equipment field in our county.

Draw portraits for Olympic Games champions

By Zhou Chaohui

On 31 July morning, the reporter interviewed Nantong famous painter Fan Yang who recorded the image of champions with brushes.

After Chinese player won the first gold medal, a traditional Chinese painting called *ultimate battle – the final moment of Tokyo Olympic Games women’s 10 m air rifle* recorded the

“It’s my responsibility to record the moments of every Chinese player winning the championships, and tell the story of China with Chinese paintings.” Fan Yang said.

‘00s’ shooter which excited Chinese people and the first gold medal in the first time.

‘As a traditional Chi-

nese painter, it’s my responsibility to record the moments of every Chinese player winning the championships, and tell the story of China with Chinese paintings.’ Fan Yang said. ‘As a local Nantong resident, while I was studying at second primary school affiliated to Nantong normal school, I was good at front and back flip, handstand, kip up ... in the university, i was also passionate in sports such as volleyball and football.’

Due to his passion in

sports clinging in his heart, from hurdle ‘flying person’ Liu Xiang to Zhang Hong who was the champion of speed skating of 2014 winter Olympic Games, and Bolt... Fan Yang used traditional Chinese paintings to record the wonderful moments in Olympic Games.

As the general art consultant of ‘Cheer For The Olympics’, Fan Yang used his brushes to respond the call of ‘cooperation and progress together’ of International Olympic Committee.

Nantong player Sun Wei on the podium of Tokyo Olympic Games

By Wang Quanli

Tokyo Olympic Games men’s gymnastics team final was completed at 8:45 pm on 26 July. Nantong

player Sun Wei and 3 national team partners won the third place of Tokyo Olympic Games men’s gymnastics team final with the score of 261.894, after

2 hours and 45 minutes hard fight, became the first Nantong player who stepped on the podium of Tokyo Olympic Games.

Sun Wei is 26 years old. He started to participate

in international competitions since 2018. He became the champion of world tournament team group in the year and became the 20th world champion of Nantong.

South Africa youth called the police for help, Nantong police officer helped him in English

By Zhang Liang

A few days ago Nantong public security bureau Chongchuan office Xinchengqiao police station received a silk banner from South Africa youth Thabiso, ‘Ren Min Jing Cha, Re Xin Wei Min’ eight characters were embroidered on the silk banners to express his gratitude to the po-

lice’s help.

On 20 July, after dinner at a barbecue restaurant in the jurisdiction, Thabiso found out that his scooter was smashed. He had disputes with others, but there was difficulties in communication due to language barrier. Receiving the call, policeman of Xinchengqiao police station Luo Dawei provided interpretation and mediated, after

skilled and patient interpretation, the dispute was settled successfully and Thabiso’s rights were safeguarded.

It is learnt that 24-year-old policeman Luo

Dawei graduated from Jiangsu Police Institute last year. At school he was very interested in English especially English used in police work. He passed English CET-4 and CET-6 exams with high scores and assisted teachers in English documents research for several times. He said that he was very proud to use his English skills to solve problems for people.
