

Nantong report

Reduce 8.566 million tons of carbon dioxide emission

In the first half of the year, Nantong offshore wind farm generated close to 7 billion kilowatts electricity

By Wu Xiaoyun

According to statistics from Nantong maritime bureau, in the first half of 2022, Nantong offshore wind power project generated 6.972 billion kilowatts electricity to the grid. Daily power generation exceeded 38 million kilowatts, reached 38.51 million kilowatts, which can satisfy the electricity need of 16.9 thousand normal families of a year.

As one the largest Asian

‘green energy warehouses’, Nantong offshore wind farm has in total 1667 white wind turbines. The estimated annual power generation of the year will exceed 15 billion kilowatts. It is measured that in the first half of the year, close to 7 billion kilowatts of clean energy, can save 2.452 million tons of standard coal, 20 million tons of water, and reduce 8.566 million tons of carbon dioxide emission and 245 thousand tons of sulphur dioxide emission, compared with thermal power.

The 1st Nantong international home textile (spring and summer) fair closed

Online and offline trading volume exceeded 5 billion Yuan

By Chen Ke

A few days ago, 2022 China Nantong international home textile (spring and summer) fair which lasted 11 days was closed. During the fair, the online and offline trading volume is about 5.07 billion Yuan.

The fair is the 1st home textile fair of Nantong. It was contracted by Jiangsu Nantong international home textile industrial park managing committee, Tongzhou district and Haimen district, organized by four major home textile associations of Nantong and major brand enterprises, together with Alibaba, Jingdong and five home textile professional e-commerce platforms, and chambers of commerce and associations, to help Nantong home textile market break the deadlock and emerge in after epidemic

period.

The fair covered home textile whole industry chain exhibitors, 50 million square meters market, two core markets, more than 350 brand enterprises, more than 30000 merchants. Ten thousand home textile new products including cloth, sets, pillows, and quilts were published at the same time. On the site, 14237 guest merchants were received, the total passenger flow was about 125 thousand people. Online, with Taobao and Jingdong these two major e-commerce giants, Tik Tok and Kuaishou these two live streaming platforms, and five major local home textile vertical e-commerce platforms including 91 home textile website and Zhao Jia Fang website, 657 million Yuan turnover was realized. The views of the fair reached 690 thousand people.

Good place to cool off

On 8 July, tourists were playing with water at Qidong Yuantuojiang resort blue sea and silver sand scenic spot. Continuous high temperature weather, made it a resort popular among a lot of tourists. Photo by Xu Congjun

After harvesting wheat in the north, go for rice in the south

Three thousand ‘wheat men’ went after harvest

By Ding Weicheng

On 5 July, agricultural machinery driver Chen Xuewen who stays at Hekou town of Rudong, drove the reaper to lately purchased truck, went to Jiangxi Ji’ an to harvest rice in a hurry.

In harvesting season, in the rumble of the machine, close to 3000 cross area agricultural machinery drivers in Nantong set off with harvesting machines. They are called

‘modern wheat men’. Their footprints are all over the state. After harvesting wheat in the north, they har-

vest rice in the south. Although under the epidemic, they did not stop the trip after harvest.

More than 600 enterprises enjoyed over 35 million Yuan tax relief

In the first half of the year, the number of issued Nantong RCEP certificates of origin ranked the 1st in Jiangsu

By Liu Lu

Regional Comprehensive Economic Partnership (RCEP) has been implemented for half a year. It provided strong vitality and vigor for foreign trade of Nantong. Data published by Nantong council for promotion of international trade shows that: in the first half of the year, in total 11.2 thousand RCEP preferential certificates of origin were issued to 685 enterprises in Nantong. The involved amount is 2.37 billion Yuan. The number of enter-

prises, the number of certificates and the amount of money account for 51.7%, 53.3% and 42.2 of the trade promotion system of Jiangsu. The quantity of issue is ranked the 1st in Jiangsu. Enterprises enjoyed over 35 million Yuan tariff relief.

Nantong Maojia international trade Co., Ltd. exports mainly women’s clothing to Japan. After RCEP is implemented, the enterprise took the opportunity of tariff relief, expanded Japanese market further. In the first half of the year, the order from Japa-

nese clients increased obviously, doubled over the same period of last year.

Organic chemical raw materials manufacturer Jiangsu Baichuan High-tech New Materials Co., Ltd., also tasted the benefits of RCEP implementation. ‘The tariffs of major products we export to Japan were reduced from 3.1% and 3.7% to 0 respectively. In the first half of the year, the amount of money of RCEP preferential certificates of origin we applied from Nantong council for promotion of international trade reached 3.5 million U.S. dollars. It is expected to save about 110 thousand U.S. dollars of tariff for Japanese clients.’ manager of the company Shi Bin said.
