Build industrial ‘go overseas’ new platform Cross border e-commerce selection expo open

By Liu Lu

On 11 August morning, 2022 China Nantong Cross Border E-commerce Selection Exhibition was open at international convention center, built Nantong characteristic industrial belt and national cross border e-commerce head seller efficient connection platform, promoted industrial supply and demand coordination, to improve the ‘go overseas’ efficiency of Nantong dominant industries.

The total floor area of the exhibition is 14000 square meters. There are 500 exhibition booths. It mainly exhibits industrial belt enterprises and products in Nantong home textile and furnishing, clothing, medical electronic equipment, electric tool, and sports equipment, cross bor-

der e-commerce international mainstream e-commerce platforms including Amazon, ebay, and Newegg, and cross border e-commerce facilitators including WorldFirst, Link trans, Ship Sage.

‘This is our latest foldable fitness bike, which does not harm your knees. You can have a try.’ at the booth of Nantong

Ironman sports goods Co., Ltd., relevant person in charge Huang Huang was introducing the performance and features of the product to purchasers. ‘The expo not only let us communicate face to face with purchasers over the state, but also contact excellent cross border e-commerce platforms such as Amazon and ebay.’

Relevant person in charge of Shenzhen Yashe cross border technology Co., Ltd. Yao Zhibo is one of the ‘cross border grand sale purchaser group’ of the expo. After looked around, he was interested in characteristic industries such as Nantong home textile, hardware tool, and sports equipment. The purchasing group represented close to 80 enterprises, from places such as Shenzhen, Xiamen, Quanzhou, Nanjing, Yangzhou, and Suzhou. They started exhibition tour mode one after another, communicated, cooperated and signed with enterprises on the spot face to face.

Apart from offline exhibition, 3-day 24 hours live broadcast ‘cloud expo’ was held, with contents including high-lights of main site, cross border star selections, operation knowledge and peak season strategy.

Disease control center published reminder
Prevent monkeypox scientifically

By Feng Qirong

Since the 1st report of local monkeypox case in Britain in May 2022, European, American, Asian, Oceanic, African (non endemic countries) countries have discovered a lot of monkeypox cases, and there has been interpersonal contagion.

Nantong disease control center published health reminder: citizens especially people who travelled to countries with monkeypox cases, once have symptoms such as erythra, shall go to the hospital actively, and inform the doctor about travel history in epidemic areas. If they had contact and exposure overseas, but no symptoms, they can contact local disease control center for consultation and report actively.

Provide services including policy interpretation, job recommendation and urban integration Young talents station of innovation district occupancy rate keeps increasing

“ Young talents station of innovation district is located at Block 38, Zilang talents apartment. It can provide 12 rooms.

By Wu Xiaoyun

At 4 pm 10 August, Yuan Jing from Wuhan reached Nantong innovation district young talents station, filled in check-in information and got the room card. After only one minute, she went in room 103 successfully. The

workers also explained about the surrounding environment and travel route in detail for her. On the day, as 12 young talents from various places completed check-in, the young talents station of innovation district were ‘full’. The occupancy rate reached a historical high point.

Young talents station of innovation district is located at Block 38, Zilang talents apartment. It can provide 12 rooms. Non Nantong resident fresh graduates of full time bachelor degree and above can apply, and stay after procedures including on-line application, background check, on spot check-in. By principle, everyone can ap-

ply no more than 2 times per year, and each time can stay at most 7 days.

Apart from free accommodation, young talents station also built supporting one stop service platform, which provides services including policy interpretation, job recommendation and urban integration. Since it was in operation officially on 3 August, several youths who came to Nantong for work stayed there.

‘It is my first time to come to Nantong. Staying in the station, let me feel the temperature of a city far away from home.’ Jiang Dongqi from Harbin said that she would use the 7 days of ‘buffer’ time, to do the preparation work before start of work.

The 4th batch of national professional, specialized, characteristic and new enterprises 34 ‘little giant’ shortlisted

By Liu Lu

The reporter learnt from municipal bureau of industry and information technology that in the latest published 4th batch of national professional, specialized, characteristic and new ‘little giant’ enterprises list, 34 Nantong enterprises were shortlisted, which was more than the summation of the previous 3 batches of shortlisted enterprises.

This time in total 48 Nantong enterprises applied for ‘little giant’ enterprises, the pass rate reached 70%. Among the 34 shortlisted enterprises, 6 are in Hai’an, 7 in Rugao, 2 in Rudong, 3 in Qi-

dong, 4 in Chongchuan, 2 in Tongzhou, 5 in Haimen, 4 in Nantong economic and technological development zone, 1 in Suxitong industrial park.

In the previous 3 batch of national professional, specialized, characteristic and new ‘little giant’ enterprises, there are 27 Nantong enterprises. The number is leading in Jiangsu province. In 2021, the total realized taxable sales of the 27 enterprises was 16.866 billion Yuan, the tax which was put in storage was 838 million Yuan; the average taxable sales and average tax revenue reached 625 million Yuan and 31.02 million Yuan, which were far more than average value of industrial enterprises above designated size.
